

As you know **Integrity** has become involved recently with many community projects - we have had several successful community projects from Make-A-Wish, School supply collections, and animal shelter supply collections.

Our next community project will be:

## Webster House.

Below is the mission statement and goals of Webster house.

### MISSION STATEMENT

The Webster House exists to meet a condition that is prevalent in New Hampshire: youth who are unable to live at home for some period of time. The Staff's intent is to address four areas of the youth's life.

**Physical:** By providing a safe home

**Social:** By applying the norms of society

**Personal:** Through counseling, activities and a wide range of interpersonal relationships

**Family:** By rebuilding the bonds and reuniting the family close-conjuncture with clear and realistic expectations.

Is intended to prepare residents for adult life, recognizing fully that this is ultimately a partnership between the family, the child and the program.
